

Accelerate product innovation and speed to market.

To get ahead, insurers must innovate and launch products faster than competitors. Our low-code, solution provides all the features and tools you need to bring new products to market at digital speeds and meet your innovation objectives with minimal impact on your existing IT. Configure terms, conditions, and rating rules for insurance products across life and non-life lines, manage the sales processes and channels, leverage up-sell and cross-sell recommendation engine, and get client insight through the 360-degree view.

KEY FEATURES —

AdInsure offers fast design and distribution of products across sales channels

PRODUCT CONFIGURATION

Easy design of new products and rules across different lines of business with the use of no code tools for IT/Business users.

MULTI-CHANNEL RATING ENGINE

Easily configurable rating engine featuring rules and algorithms to calculate premiums for all your lines, products and channels.

AGENT PORTAL

With customizable widgets and dashboards, agents can now handle new business submissions, quotes, and underwriter collaborations.

DIGITALIZED INSURANCE PRODUCTS

New and changed product configurations are immediately available for distribution due to the out-of-the-box API.

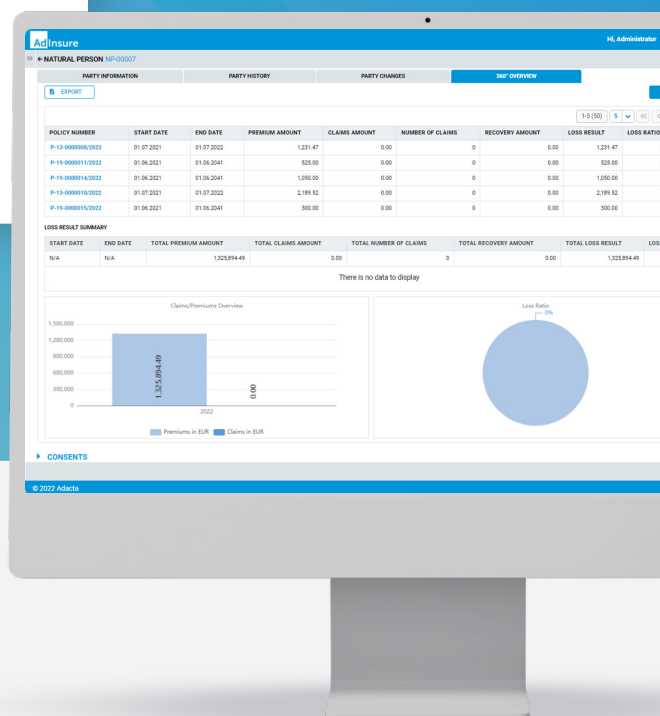

360-DEGREE CLIENT VIEW

Access the entire collection of client personal information, including sales opportunities, contracts and financial data.

UNDERWRITING

UW features provide a digital workplace for underwriters with management, analytics capabilities, and easy IT integration.

The AdInsure Speedboat differentiation

Speed to innovation

Design and deploy new products at the speed of truly digital insurers.

Future-proof

Launch any kind of existing and emerging insurance coverages for Life and Non-Life.

Standalone

Deploy it as a standalone solution without impact on existing IT systems.

End-to-end support

Manage the entire product life-cycle, from product design to Sales, UW, and Claims.

Low-code

Award-winning architecture and tools that enables fast implementation of change.

Cloud

Deploy it on-premise or in the Cloud without loss of functionality.

A roadmap to complete digitalization

The wide range of AdInsure platform features and line of business support allows you to modernize your systems in a phased, low-risk way and consolidate every part of your business on one insurance technology platform.

Replace Claims core and digitalize Claims

Improve efficiency and process transparency.

Replace and modernize Legacy PAS

Modernize the whole PAS cycle and digitalize all product lines.

Improve product innovation capabilities

Get faster at product launches and UX upgrades.

Digitalize distribution channels

Implement cloud-based portal, rating engine, and Sales module.

Full legacy modernization

Replace other core systems and implement state of the art solutions.
